innovation through tradition

Indera, part of the Mecam-family, the largest seating furniture manufacturer in the Benelux. Every single day our 445 seating experts focus on innovation, sustainable entrepreneurship and constant improvement of our production process to guarantee ultimate seating comfort for many years to come.

Ingenious design is inseparably part of Indera's heritage. Premium quality, comfort and beauty determine our DNA. And now, our technical knowhow is part of that heritage too. We proudly present a brand new generation of seating experiences. Our innovative Snooze concept introduces worlds first sofa that intuitively

balances aesthetics and comfort. For the very first time ergonomics, functionality and a fierce architectural design blend together harmonically. So sit back, relax and enjoy the power and life quality Snooze brings into your life.

sunday afternoon 4 pm

At some point in your life you don't want to make any more compromises. Why choose when you can have it all: a luxurious sofa that uplifts your interior with a sense of elegance and allure, and at the same time provides an ergonomically designed seating experience. Meet the new love of your life that'll be there for you, all of the time. Monday 6 pm, to recover from ... well, Monday. Wednesday 12 pm, when the kids

come home from school and take over your favourite seat or the rest of the afternoon. Friday 4 pm when you get ready for the weekend. Saturday 10 am when having breakfast and reading the weekend edition of your favourite newspaper. Twelve hours later, in good company of family and friends who love to come over to enjoy their very own Snooze-time. And finally Sunday afternoon 4 pm, when relaxing is all you have

on your list. No matter the moment or the mood, Snooze fits you perfectly.

When reading or working, she provides ultimate support to your lower back, shoulders and neck. But oh, how irresistibly soft she is when hanging out for hours, relaxing, gaming, sleeping, snoozing, making love or bingewatching your favourite series or sports events. Your Snooze truly is a match for life.

electric mode

Snooze introduces intelligence driven comfort. Some of its modules are equipped with the most sophisticated technology. Turn the seating cushion 90° by hand and let silent electric powers take over. Through either integrated buttons or a remote control you can command your seat to move forward and form a bend. Need extra support?

Click out your additional legs. Your back cushion moves up and gets in a comfortable lying mode. Move your neck support in perfect position for a relaxing or dynamic seating experience. An additional lumbar pillow guarantees ergonomic support. Power for the electric motors is provided through a cord or wireless rechargeable batteries.

the details are not the details

Snooze provides intelligence driven comfort, carefully manufactured with worlds finest materials built on decades of local furniture traditions. It's no coincidence this masterpiece of design is wearing high heels. The effect on your interior is undeniable. Snooze's legs bring a touch of lightness and elegance to the room. But again, let's not forget about function. By inviting

light underneath, Snooze doesn't leave marks on your wooden floor. And what an easy access it is for mops during your weekly clean-up. But ... it is not until you switch to ultimate relaxing mode that you'll experience their true value. Switch the seating, pull out a pair of additional legs and enjoy their comfortable support. This is UX at its finest. Snooze legs are not just any

legs. Look at them closely. You'll notice we've put a lot of time and effort to get them just right. The breathtaking design is locally made out of cast aluminium, which guarantees soft edges and elegant transitions towards fabric endings, elegantly finished with a black powder coating. But - of course - all RAL-color finishes in your favourite shade are possible.

durable seating comfort: a force from within

It's like they say. It's the inside that matters. Although Snooze is destined to be an eyecatcher that brings instant character to your living space - or any space - the true relaxing experience comes from within. If you would cut the upholstery you'd firsthand experience the extreme quality of our selected high density cold

foam, famous Dacron cotton wool and Nosag springs. Yes, we went over the top to implement worlds finest materials in your Snooze. Cause although invisible to the eye, these insides provide endless ultimate seating experiences. This is what we stand for. This is the only way to wear the Snooze name with pride.

ultimately refined craftsmanship

We take relaxing very seriously. Truth is, over the past 2 years our team of designers, engineers and craftsman have been busy perfecting this revolutionary sofa. And yes, that meant they sometimes had to snooze in it themselves. But we swear, only for your wellbeing. It was time well spent. The effects are so phenomenal, we patented

our exclusive relax mechanism that from now on is worldwide known as EP 3 420 856 A1. So what you'll experience is the result of an ultimate combo of high-end materials and techniques, working together ingeniously. Those 2 years of constant refining will guarantee you decades of relaxing comfort. This is what happens when a seating experience becomes an art.

writing your own life story

An extensive range of premium fabrics and leathers in warm tones are yours to choose from. Various sizes and possible compositions with/without relax function and/or high/low arm rests allow you to fit your Snooze perfectly into your life. Keep remotes, drinks, glasses, tissues or favourite books nearby on a handy side tablet or box in high quality woods and marbles,

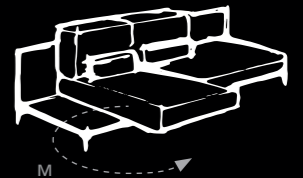

monotoned or deliberately contrasting. Our manufacturers are eagerly anticipating your personal design. Really. With Snooze we take customisation to the next level.

comfort meets technology

Steve Jobs once said: good design is not what something looks and feels like, but how it works. And how our Snooze works. You can easily shift into ultimate relaxing mode either manually or through our technology. Whatever your preference, intelligence driven comfort is at your service.

true belgian craftsmanship based on generations of furniture tradition

We believe in local craftsmanship. Real personal relationships with nearby manufacturers and partners drive our team, every day. We love to look our partners and co-workers straight in the eye while developing, designing, creating and manufacturing future proof living solutions. We love to make life changing decisions that are agreed upon with a warm handshake. It is the only way we can

truly take control of our high end quality. Right here at home we smell the sent of natural fabrics, leathers, woods and stone, we feel the artisan vibes. No matter how far our Snooze travels to its new home, we will always cherish our local craftsmanship. This is how we do things. This is our tradition.
