sunday 11 a.m.

Sunday 11 a.m. No alarm clock at dawn. The sun shines through the windows. The weekend newspaper and a cup of coffee wait downstairs, and so does your recliner Lazy Louise. The next stop on your quiet Sunday morning. Feel free to call Lazy Louise a rough diamond. This recliner is simple and defined on the outside, but is full of surprises when you really get to know her. In her upright position, she

effortlessly helps you devour the newspapers you've been piling up for days. Or string together the pages of that one exciting book that has been waiting for you for weeks. If you slightly unfold Lazy Louise, she supports you for hours when you finally binge that series you have been waiting for.

Regardless of how you want to experience your Sunday, Lazy Louise is there every hour, and every minute of the day. However, she really shows her strength when you long for a power nap. Lazy Louise's secret is her zero gravity pose. The ultimate relaxation position in which she lifts your feet into the air until they are aligned with the heart. In no time, Lazy Louise wins over all the tension in your

body. It is her key to success. Lazy Louise's fabric is soft, her comfort enriching and her design so timeless that she will fit at any place in your interior. As if she was always there. Before you know it, it's 5 p.m. The aperitif calls and Lazy Louise straightens her back for the first time on that Sunday. You only leave her when you really have to. She is your ally on weekends.

electric mode

Lazy Louise is so much more than just a recliner. Her soft and spacious design offers the comfort to relax for hours. Thanks to three noiseless and built-in electric motors that you control via integrated buttons, you can choose to unfold the footrest. The chair automatically tilts to ensure optimal seating comfort. To reach her reclining position, the backrest moves further back until you reach the

zero gravity position. You can also move the neckrest into the desired position.

Lazy Louise rotates completely around her axis, leaving you free to enjoy any view in your home. Spending hours in this modern recliner? It's the definition of pure pleasure. Power for the electric motors is provided through a cord or wireless rechargeable batteries.

ultimately refined craftsmanship

Our designers and engineers have truly surpassed expectations with this exceptional recliner. While Lazy Louise boasts a sleek and modern design, it's what's inside that sets it apart—three advanced motors that elevate your comfort to the next level. Every moment of relaxation is the result of a masterful blend of premium materials and cutting-

edge engineering, seamlessly working together to provide you with years of unparalleled seating pleasure.

true belgian craftsmanship based on generations of furniture tradition

We believe in local craftsmanship. Real personal relationships with nearby manufacturers and partners drive our team, every day. We love to look our partners and co-workers straight in the eye while developing, designing, creating and manufacturing future proof living solutions. We love to make life changing decisions that are agreed upon with a warm handshake. It is the only way we can

truly take control of our high end quality. Right here at home we smell the sent of natural fabrics, leathers, woods and stone, we feel the artisan vibes. No matter how far our Snooze travels to its new home, we will always cherish our local craftsmanship. This is how we do things. This is our tradition.
